

Marconi's Wireless Telegraph Company, Limited.

Table Head, Glace Bay,

Near Sydney, Cape Breton,

7 November, 1902. 190

H.H. McClure, Esqre.

141--155 East 25th Street

New York.

My Dear McClure,

I have received your letter of the 27th October. I regret to say, however, it would be quite useless for your purpose of getting a magazine "story" that you should come up here at present. I should not be able to show you anything, as it will be essential for some time to come that the nature of the apparatus used here remain entirely secret. In point of fact, I have been so dissatisfied with much that has appeared in the Press, including the Magazine Press, ^{during the current year,} that I have finally made up my mind on this occasion to communicate nothing whatever until after the completion of my programme in its entirety.

I am glad to find things here looking well, but at present the plant is not yet ready for conclusive tests.

I am,

Yours faithfully,

G. Marconi

P. S. Best regards to Mrs McClure

Memorandum for the Director

Subject: [Illegible]

1 November 1955

R.H. McGowan, Director

141-158 West 25th Street

New York

My Dear McGowan:

I have received your letter of the 27th October. I regret to say, however, it would be quite useless for your purpose of getting a magazine "story" that you should come to New York at present. I should not be able to show you anything as it will be essential for some time to come that the nature of the operations used here remain entirely secret. In spite of that, I have seen so classified with you during the current year that has appeared in the press, including the Washington Post. I have finally made up my mind on this occasion to communicate nothing whatever until after the completion of my statement in the interim. I am glad to find things here looking well, but at present the client is not yet ready for correlative results.

I am

Yours faithfully,
